

For our second assignment, we got to film our experience visiting UTM Digital. We not only got to learn about the many services offered by UTM Digital but also got to visit the data center which we could not film. It was a thrilling experience since UTM Digital also allowed us to experience what it was like to work in the technology industry. Visiting around the offices, seeing the various technologies available (such as the interactive whiteboard), and interacting with various members of the UTM Digital team was fascinating.
