## REFLECTIONS

With these insights in mind, it is clear that working in the technology industry requires more than just technical knowledge, as it is a dynamic and ever-evolving field. Every professional at Clarity Tech Works has provided insights that highlight the complexities of the technology industry. From the perspective of Mr. Ridzuan and Ms. Syarifah Adilatul Hulwani, it is clear that independence is an important feature of a professional environment. I learned the importance of taking responsibility for one's work and applying ingenuity to problem solving, and the importance of continuing education throughout life and developing skills outside the classroom. I am glad to know how important good communication is to promote team collaboration and messaging. Finally, they both emphasize the importance of completing tasks on time to maintain effective teamwork and avoid annoying colleagues. Overall, their findings provide enlightening tips for success in Android development and UI/UX design. These insights shared by Liyana Amri, Saiful Habib Danial and Izzah Fatini binti Mohd Nasr gave me a lot to think about! Learning from mistakes, continuous improvement of skills and effective time management are all important aspects of success in the technology industry. It will be interesting to see how these lessons apply to real work experience. I appreciate the opportunity to learn from their perspective.

## QA TESTING ANALYST

DAILY RESPONSIBILITIES INCLUDE REPORTING BUGS, TESTING, AND DOCUMENTING.

ANALYSTS ARE CRUCIAL FOR PRODUCT RELIABILITY AND USER SATISFACTION.

KEEN ATTENTION TO DETAIL FOR IDENTIFYING SUBTLE BUGS.

THE LAST LINE OF DEFENSE TO GUARANTEE THAT USER-FACING APPS AND PRODUCTS ARE FREE OF BUGS

## SUMMARY

Professionals at Clarity Tech Works emphasize that in the always changing tech business, having a wide skill set, taking responsibility, communicating well, and finishing tasks on time are essential for success in areas like as UI/UX design, Android development, Web/API development and QA test analyst.
