

>>> EXECUTIVE SUMMARY:

The talk covered diverse IT and software development issues with insights from professionals. It highlighted challenges and recommendations from web developers, security testers, and UI/UX designers, underscoring the importance of soft skills like self-reliance and communication. Key points included networking, teamwork, knowledge of platforms like GitHub, software development processes, QA testing, and AI's impact on the job market. Speakers advocated for lifelong learning, proactive education, and the development of both soft and technical skills. Web developers stressed time management and continuous improvement, offering a comprehensive blend of career guidance, technical advice, and firsthand experiences.

>>> REFLECTION

The talk informed students about diverse ICT career paths, emphasizing soft skills alongside technical expertise, adaptability, and continuous learning. Career transition stories showcased professional flexibility, while ethical considerations in AI highlighted responsibility. Stressing peer networking for mentorship, the talk presented a positive outlook on ICT professions, emphasizing a balanced skill set, ongoing education, and ethical awareness concisely.

>>> CONTENT TALK

>>> QA TESTING ANALYST:

-  AIM OF THE JOB:
 - DEVELOP COMPREHENSIVE TEST PLANS OUTLINING THE TESTING STRATEGY AND APPROACH.
 - ENSURES SOFTWARE IS BUG-FREE BEFORE PRODUCTION (PROVIDING USERS WITH A POSITIVE EXPERIENCE.), CONDUCTING TESTING BASED ON PAST TEST CASES
-  SKILLS NEEDED:
 - CRITICAL THINKING AND PROBLEM-SOLVING.
 - STRONG FOUNDATION IN DOCUMENTATION.
 - GOOD TIME MANAGEMENT AND ATTENTION TO DETAIL
 - ANALYTICAL SKILLS FOR SOFTWARE REQUIREMENTS..

>>> UI/UX DESIGNER:

-  AIM OF THE JOB:
 - UI/UX RESEARCH
 - WIREFRAMING AND PROTOTYPING
 - HANDOFFS TO DEVELOPERS
 - INFORMATION ARCHITECTURE
 - TESTING AND ITERATION
-  SOFTWARES USED:
-  SKILLS NEEDED:
 - PROBLEM-SOLVING
 - CREATIVE THINKING
 - ATTENTION TO TINY DETAILS

>>> ANDROID DEVELOPER:

-  AIM OF THE JOB:
 - IMPLEMENTING NEW FEATURES
 - RESOLVING BUG ISSUES
 - WRITING PROJECT DOCUMENTATION
 - IMPROVING PROJECT CODES
 - PUBLISHING APPLICATIONS ON GOOGLE PLAY STORE
 - RESEARCH ACTIVITIES

SOFTWARES USED:

-  SKILLS NEEDED:
 - ANALYTICAL SKILLS FOR CODE FLOW
 - EFFECTIVE COMMUNICATION
 - CREATIVE CODING
 - PROFICIENCY IN INFORMATION SEARCH

>>> WEB/API DEVELOPER

-  AIM OF THE JOB:
 - DEVELOPS APIs FOR INTERNAL AND EXTERNAL USE
 - TROUBLESHOOTS
 - MANAGES WEB APPLICATIONS
-  SOFTWARES USED:
-  SKILLS NEEDED:
 - FAMILIARITY WITH THE FRAMEWORK USED (LARAVEL, VUE, INERTIA)
 - QUICK AND SHARP THINKING FOR ANALYSIS AND DECISION-MAKING
 - CONTINUOUS DEVELOPMENT, RESPONSIBILITY, AND ATTENTIVENESS
