A VISIT TO CLARITY TECHWORKS

WISMA SUNWAY BIG BOX, 79250 ISKANDAR PUTERI, JOHOR

Clarity Techworks

Services

- From designing and building new products from scratch, to modernizing or integrating existing solutions, or strategizing for future expansion, they help us develop software that meets customers' specific needs
- They also work throughout the process on further researches and test designs to deliver consistent and enjoyable experiences for client.
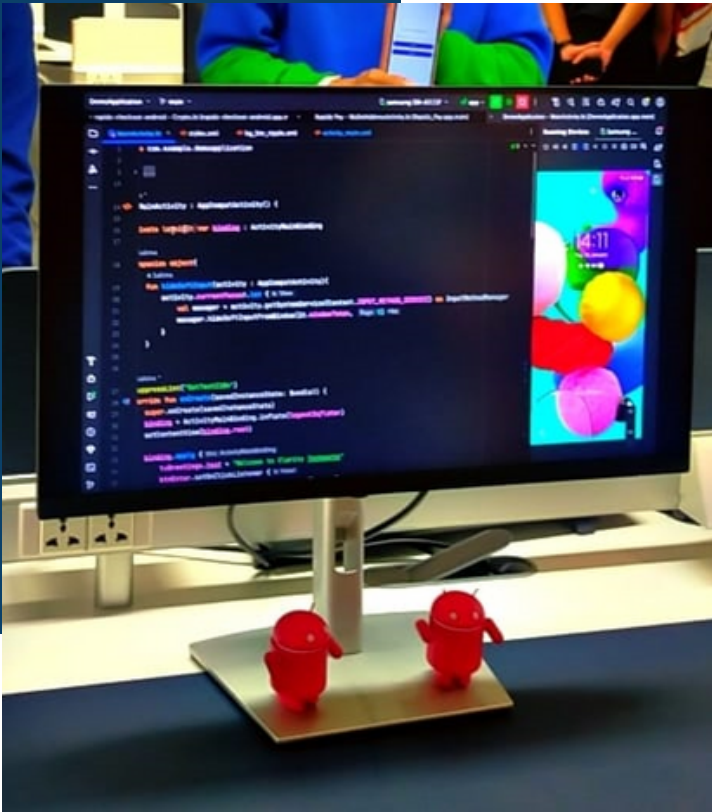

Summary

In short, this experience has taught us about the roles of the Web Development Team, UI/UX Analysts, Web API Team, Android and iOS Teams, and the technologies and programming languages we should learn to secure jobs in each of these roles. It has also motivated us to continue learning the latest technologies, as IT is a field that evolves very rapidly. This has been a valuable experience, providing insight into our future and guiding us on what we need to do to achieve success in this evolving industry.
