CONTENT OF THE TALK

1. Technologies used
2. Company structure
3. Speakers from different roles
4. Application development
5. Importance of solid foundation of knowledge

REFLECTION:

From the talk, we learn that we have to …

- learn from someone smarter and keep asking if there things we don't understand.
- start developing software and publishing it to Github.
- start make connection with person or organisation that related to our course.
